

## EXECUTIVE ORDER

---

### ESTABLISHING A NON-PROFIT ENGINEERING DESIGN TEAM TO USE ARTIFICIAL INTELLIGENCE TO STOP BOKO HARAM MOST IMMEDIATELY

WHEREAS His Excellency Prof. Mohammed Gana Yisa, Ambassador Extraordinary and Plenipotentiary of the Federal Republic of Nigeria to Japan, asked the Tokyo Global Engineering Corporation Charitable Trust to design artificial intelligence to combat arms trafficking:

NOW, THEREFORE, by virtue of the authority vested in me as President of the Tokyo Global Engineering Corporation Charitable Trust, by the Board of Investors and its Charter, and as Chairperson of the Board, I ORDER the following:

1. There shall be created the Tokyo Global Engineering Corporation Charitable Trust Artificial Intelligence Design Team, which shall be composed of unpaid volunteers around the world that design an artificial intelligence system to deprive Boko Haram of ammunition.

2. The Tokyo Global Engineering Corporation Charitable Trust is authorized and directed to cooperate with the Tokyo Global Engineering Corporation, any corporation, and any university—anyone, really—willing to furnish, without cost, such information or the services of such persons as the Artificial Intelligence Design Team may require in the performance of its duties.

3. The Tokyo Global Engineering Corporation Charitable Trust shall raise funds to support this, its most important project, ever, by *any means necessary*, though largely through donations by its volunteers that participate in its internships for academic credit, which the Charitable Trust is authorized to solicit.

4. The Artificial Intelligence Design Team shall continue to exist until such time as the President shall terminate its existence by Executive Order.

Dr. Shelli Da'Neal Sanders
